**Teaching Assistant**

Hopital de Clinicas Jose de San Martin

08/21 - 07/23

Teaching/mentoring

Buenos Aires, Argentina

I helped with hands-on simulation activities with training in airway management, ACLS, ATLS, intravenous catheter placement, lumbar puncture, sutures, ultrasound, and also ways to deliver bad news.

Often, during lessons, a student's face would light up and fill with a smile when a difficult, intangible concept was understood for the first time. As a teacher, these moments became my driving force, and whenever I witnessed that smile, I felt honored to have contributed to a colleague's education.

**Research Coordinator**

Cleveland Clinic

09/23 – Present

Work

Cleveland, OH

**Research Coordinator**

Currently in the main campus, I am in charge of leading and coordinating research projects.

For the last year at Fairview Hospital, I was the lead research fellow. Some of my duties in the Valiance study, Guardian trial, Cali Bioscience trial, Tsumura trial, DoD trial, Takeda trial and Artemis trial were:

- 1) Explaining informed consent to patients
- 2) Assessing and collecting clinical data from medical records
- 2) Enrolling them in different types of studies, including multiple trials
- 3) Ensuring good communication between the surgery and anesthesia team.
- 4) Randomizing patients and entering data using RedCap and Epic
- 5) Placing lab orders and shipping collected samples.
- 6) Follow up with patients.

I am also involved in projects with Fernando P Secin, MD, PhD and Toms Augustin, MD, MPH: Hyperbaric Oxygen Therapy for Erectile Dysfunction, Risk Factors for In-Hospital Cardiac Arrest Due to Aspiration and Management Strategies and Long-Term Outcomes for Difficult Cholecystectomies.

**Volunteer**

St. Joseph Parish Avon Lake

09/2023 - 2024

I help with the organization, the serving and the cleaning in fish fry events and breakfast hospitality events on Sundays.

Cleveland, OH

**Language Fluency**

Language	Language Proficiency	Proficiency Description
English	Advanced	I speak very accurately, and I understand other speakers very accurately. Native speakers have no problem understanding me, but they probably perceive that I am not a native speaker.
French	Basic	I speak the language imperfectly and only to a limited degree and in limited situations. I have difficulty in or understanding extended conversations.
German	Basic	I speak the language imperfectly and only to a limited degree and in limited situations. I have difficulty in or understanding extended conversations.
Spanish/Spanish	Native/functionally	I converse easily and accurately in all types of situations.
